Zone Offroad Products has added a complete line of pitman arms for your custom projects. We know the importance of getting your steering geometry setup correctly when adding a lift. These heavy duty 1 piece forged pitman arms will reduce the drag link angle to improve your handling when used to match the angle of your track bar.

NOTES

1. Increases turning radius on this application.
2. Does not fit production codes prior to 3-1-99. (Use F8401)

NOTES

1. One bushing/sleeve kit required per leaf spring
2. One bushing/sleeve kit required per pair of leaf springs
3. If installing 2" rear springs (J0200) without any additional driveline modifications (ex: transfer case drop, SYE/CV driveshaft, motor mount lift) it is necessary to install 4 degree shims on the rear leaf springs to correct the rear driveline angle. See optional accessory section to add 4 degree shims and new center pin kit. (Shim Kit # U3001 - Center Pin Kit # U3010)
4. If installing 4" leaf springs (J0400) without any additional driveline modifications (ex: SYE/CV driveshaft, motor mount lift) then it is necessary to order and install 4 degree shims on the rear leaf springs and a transfer case drop to correct driveline angles. (Additional shims may be necessary when using a combination of drivelines modifications.) See optional accessory section to add 4 degree rear shims and the transfer case drop to your order. (Shim Kit # U3001 - Center Pin Kit # U3010 - T-case drop kit # J5003)

ADD-A-LEAFS

Does the rear of your truck need a little extra boost? The Zone add-a-leaf kits are the perfect answer. We only design long thin add-a-leaves so you won't get a harsh ride. This kit comes with complete instructions, new center pins and new leaf alignment clamps.
