NITRO SHOCKS

The New Zone Nitro Series shocks absorber offers the ultimate in control and performance. The full displaced valving offers a better valving range on both the compression and extension travel. This vehicle specific valving is pressurized with a low pressure nitrogen gas. This gas charge ensures split second response and reduced aeration. Combine these features with the special Fluon banded piston and this shock is built to perform!

SHOCK BOOTS \$3.50

These all-weather convoluted boots help to protect the life span of your shocks. By protecting the seal and shock rod, these boots prevent debris from causing oil leaks, and keep your shocks in optimal working condition whether your vehicle is used as a daily driver or an off road mud machine. These boots are designed for 2 3/8 shock bodies, but can be cut to fit smaller shock or stabilizer cylinders if needed.
